Learning Question: Where?

Maps: Use these teaching segments to help students gain in context about the geography and scale of related events to Abraham Lincoln.

Abraham Lincoln
Entire Video #23230

TS2 Map: United
States (1861)

TS8 Civil War Begins

TS9 North and South

This example slide shows small camera icons that can be hyperlinked to entire videos and/or teaching segments in CCC! Technology. Teachers would search in CCC! for Abraham Lincoln to access videos/teaching segments that are appropriate to answer the key question. Once students have chosen leaders to compare/contrast to Lincoln, teachers would search in CCC! for related videos/teaching segments and create a new slide for students to easily access video resources.

This method of student access is appropriate for schools/districts who do not yet have student logins to CCC! Technology.

To create a hyperlink to a video resource in CCC! follow these steps:

1. Conduct a search on a topic;
2. Select a video to use;
3. Click on “Additional Information” link on the right hand side of the video player page;
4. Copy the appropriate url for the video or teaching segment you want to use;
5. Go to the slide you want to hyperlink the video to and use an icon (like the camera one I used), select and hold down the Control key and select the K key. A window will appear and you can paste the url into the field at the bottom of the window.
6. Save
7. *Play the show and test the link. The video or video segment should launch when you select the hyperlinked icon.

Please note: the reason why we do not create the hyperlinks for you is that you will be linking to the segment on your CCC! server. If we would make this it would link to our demo server and take students onto the Internet. We have designed the PowerPoint slides for you to use and provided you with the camera icon .

*Please note: the movie will not launch unless you are in the play slide show mode.

Copy this icon by right clicking on this picture.
